

Arlington Chamber of Commerce and Arlington Independent School District Student Practicum Program Interest Form

What is the Student Practicum Program?

The Arlington Chamber of Commerce is working with the Arlington Independent School District (AISD) to secure practicum opportunities for the 2018-2019 school year, with the first placement of students in September 2018.

Industry organizations who have businesses in: Audio/Video/Photography, Business Management, Entrepreneurship, Health Science, Human Services, Marketing – Sports and Entertainment, Culinary, Agriculture, Manufacturing, Automotive and Transportation, Architecture and Construction, IT, Public Safety, Accounting and Finance and STEM including Engineering Internship. For more information on the above industries, please visit www.aisd.net/career-technical-center/career-pathways.

What is the Employer Commitment?

We invite your support to open up a practicum experience to offer job shadowing, mentoring and provide practical application experiences to participating students. The practicum will benefit AISD high school seniors who wish to have a learning experience in entry level and middle skill careers. Practicum opportunities can be made available either as paid or unpaid. Students will have the ability to work a minimum of six (6) hours per week. Pending the students schedule and employer needs, hours may have the ability to increase. The goal of the program is to encourage students to explore a career of interest, complete the school year practicum, and gain a learning experience of the work environment.

COMPANIES OF ALL SIZE ARE ENCOURAGED TO PARTICIPATE.
