Arlington Collegiate High School

Frequently Asked Questions (FAQ)

[Arlington Collegiate High School](#) is an innovative high school in Arlington ISD that offers students who might not otherwise consider attending college the opportunity to earn both a high school diploma and an associate degree from Tarrant County College's Southeast Campus simultaneously.

Are there any information meetings?

Yes, there will be one information session conducted virtually via Microsoft Teams and one in person. Below are the dates and times for both sessions.

★ **Virtual Session:** Monday, October 26, at 6:30 p.m. on **Microsoft Teams**

- [Click here to join the virtual meeting](#)
- **Meeting ID:** 298 079 173 123 19
- **Passcode:** pa7om7Be

★ **In-Person Session:** Monday, November 2, at 6:30 p.m.

- Arlington Collegiate High School Cafeteria
- 2224 Southeast Parkway, Arlington, TX 76018

Why should I apply to this school? What will be different about this school than a traditional school?

An Early College High School, like ACHS, is a designation from the Texas Education Agency for innovative high schools located on or near a college campus that provides students who would not otherwise consider attending college with the opportunity to earn a high school diploma and an associate degree.

An Early College High School provides Arlington ISD with a unique opportunity to serve students with college potential. ACHS serves over 400 students in grades 9-12 and will add approximately 100 students each year to our incoming freshman class. Students have access to Tarrant County College facilities, resources, and services, including faculty, libraries, labs, and artistic, cultural, and extracurricular activities, as appropriate.

How much college credit can a student earn at ACHS?

An ACHS student can earn up to 60 credit hours for their associate degree at Tarrant County College (TCC). ACHS students begin taking dual credit classes as freshmen. Students may also earn additional college credits at the University of Texas at Arlington (UTA) and Texas Wesleyan University during their senior year at ACHS.

Who can apply and how do I apply? When is the deadline?

Students in eighth grade may apply to attend ACHS beginning Wednesday, October 21, 2026, by completing an online application. Applicants are screened to determine whether they meet established criteria, and those who

qualify will proceed to a selection process. Completed applications are due by 5:00 p.m. on Thursday, November 12, 2026.

How do I know if I was accepted? When will I find out?

Student acceptance or denial notifications will be emailed out at 4:30 p.m. on Tuesday, December 8. Notification will be sent to the email address provided on the application.

Is it free?

Yes, there is no cost to attend ACHS. Arlington ISD will pay for tuition, fees, and required textbook charges not waived by Tarrant County College.

Is there transportation?

Yes, there are school buses that travel to and from each traditional high school in the district to ACHS on each school day. Students are picked up at their zoned high school each morning and driven to ACHS, then ride the bus back to their traditional high school each afternoon.

How many students are accepted? How many people apply each year?

Approximately 100 students are accepted into Arlington Collegiate High School each year. More than 350 students apply annually.

What qualifications are you looking for?

We are seeking students who consistently work hard and maintain a positive attitude. Students at ACHS will attend a campus that fosters a college-going culture, enabling them to develop the skills, knowledge, and academic behaviors necessary for college success.

Do you accept out-of-district students?

Residents outside of AISD boundaries will be offered admission only after all AISD residents have been placed. However, out-of-district siblings of current ACHS students are exempt from this restriction.

Can my child participate in sports or fine arts while attending ACHS?

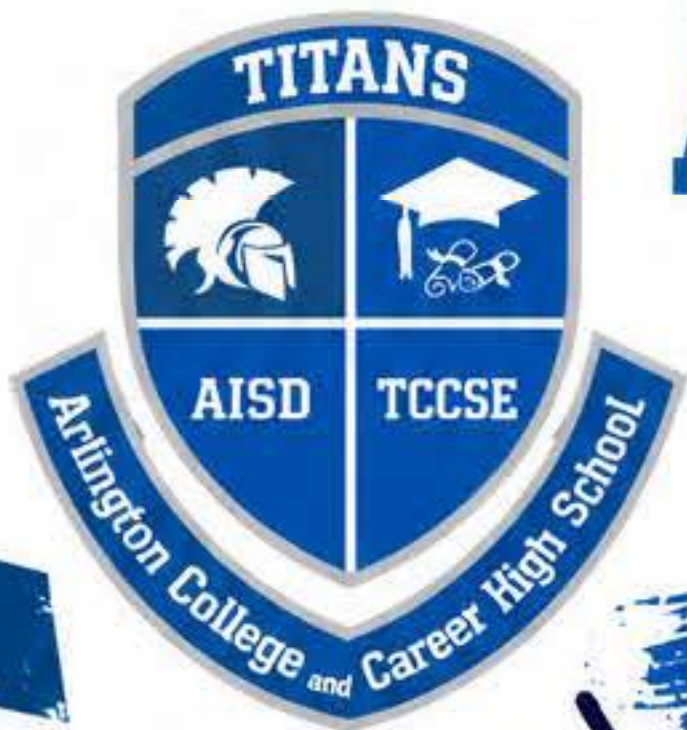

No, there are **no competitive sports or fine arts** available at ACHS. Students who attend ACHS are **not permitted** to compete in these areas for other high schools in the district.

What grades are accepted into this program?

Students must begin during their ninth-grade year, so only incoming ninth-graders are eligible for acceptance.

Can my child earn college credit at this school, and is it paid for?

Yes, students can earn 60 or more college credit hours toward their associate degree. All tuition, fees, and required resources are fully covered by TCC and Arlington ISD.
