

## ARLINGTON ISD HEALTH SERVICES

Dear Parent,

When bringing medication your child needs to take at school:

For short-term medications, such as antibiotics, bring only the amount your child will need to take at school.

For long-term medications, bring only one month's supply. Request an extra Rx container from the pharmacy for school use.

If half tablets are required, please do not cut or break tablets before bringing to school.

Count the number of tablets/capsules you are sending and sign below.

For your convenience, the number of school days in each month are listed on the back of this sheet.
