Discussion Item

Subject: 2023-2024 HB3 and District Improvement Plan Status Update

Purpose:

To provide an update on progress related to literacy and mathematics proficiency as outlined in the 2023-2024 HB3 and District Improvement Plan goals.

Background:

In the spring of 2019, the 86th Legislature passed the finance bill, HB3, which included specific requirements pertaining to goal setting and the progress monitoring process for improved outcomes in the early childhood literacy and mathematics, as well as college, career, and military readiness (CCMR). The statute requires school boards to adopt plans that include annual goals for aggregate growth on 3rd grade reading and mathematics achievement, annual targets for closing achievement gaps among student groups, targeted professional development for classroom teachers and annual targets for students being served in bilingual and ESL programs. The bill also calls for aggregate annual goals and targets for CCMR as evaluated under the state accountability systems' student achievement domain and for each student group articulated in the closing the gaps domain. This discussion item will provide a progress update pertaining to student outcomes on the first curriculum assessment of the school year.
