  - Out-of-state educators may teach in Texas for one year based on an out of state certificate. TEA issues one-year certificates for this purpose. Educators must apply for a review of credentials and when hired by a district, apply for a one-year certificate.
  - Out-of-state educator must complete all exams as required by TEA within 1 school year (not calendar year).
  - **Upon review of the educator’s credentials, TEA has ultimate determination on what exams, if any, are required before the out of state candidate can obtain their Standard Texas Certificate.**
