

One Southlake 2026 Scholarship Overview

(Scholarship is also available at: <https://onesouthlake.com/scholarship>)

One Southlake is a 501(c)(3), history enrichment program whose mission is to educate people about what it's like NOT to grow up in the United States through the stories of American immigrants. We hope to create a deeper appreciation of America and its history through the eyewitness accounts of people who did not grow up with the liberties and opportunities many of us take for granted.

Because so many of our speakers come from socialist and communist countries, we strive to use their personal histories to show what it's like to live without the protections afforded by the United States Constitution. Our speaker programs are endorsed by Texas State Senator Donna Campbell, author of SB 24, a new law that seeks to fill a gap in students' historical understanding of tactics and consequences of communism.

The One Southlake Scholarship for 2026 provides College and Technical School Scholarships to exceptional students. It requires several hours of online coursework, a brief video presentation and an application. It is open to all Texas 11th & 12th graders, including home-school students.

Student Scholarship

One Southlake is using the free online curriculums of Hillsdale College and Victims of Communism Memorial Foundation, two 501(c)(3) educational institutions. One Southlake doesn't benefit financially from working with either organization.

*Parents and Students please note: the Hillsdale College class is a college-level curriculum; it contains archival images of victims of communism that are graphic in nature.

Step 1: Complete the learning modules below

Learn

- A. Marxism, Socialism, Communism from Hillsdale College: Take Hillsdale's free online [class](https://online.hillsdale.edu/pages/onesouthlake) (<https://online.hillsdale.edu/pages/onesouthlake>), a combination of brief videos with quizzes. Estimated completion time is

3.5 hours. *Save your completion certificate as a PDF file. You must upload this with your submission.* If you received this certificate in 2024 or 2025, it's still good to use in the 2026 Scholarship.*

- B. Witness Project from Victims of Communism Memorial Foundation: (<https://victimsofcommunism.org/programs/witness-project/>) *View at least one video and take notes to cite in your video presentations.*

Step 2: Create a brief video telling us what you learned.

Video: Create a TED-talk-styled video presentation answering the prompt below. Feel free to use graphics to illustrate your points. Source your work. Make sure your video is no longer than 10 minutes, and that you own the right to use all music & images on the video. Make sure your video does not contain inappropriate language, images or sounds.

PROMPT:

Xi Van Fleet, who survived China's Cultural Revolution, writes on X that "Collectivism is the essence of both Fascism and Communism. Individualism—and by extension, America—stands as their natural enemy."

Using supporting evidence from the Hillsdale Marxism class, the Victims of Communism "Witness Project" videos and/or One Southlake speakers explain how she might have come to this conclusion. How can contemporary Marxist attitudes, left unchecked, potentially erode constitutional protections like those in the First and Fifth Amendments? Are concepts like state-owned grocery stores, reparations, and aggressive schemes to redistribute wealth and perceived privilege compatible with Constitutional liberties and a free market? Why or why not?
